"Through my work, you experience everything that has touched my life. All that I've heard, all that I've seen, all that I've felt, all that I've loved and lost, everything I am is poured out in what I do"

Seeking refuge in post punk electronic music and the underground music scene of Los Angeles, David Alvarado built the foundation of a career with blood, sweat, and tears. A career that now spans over 30 years, molded by gang violence, renegade parties, and personal tragedy, he was then discovered by **Plus 8 Records** founders **Richie Hawtin** and **John Acquaviva** in the early 90's.

David has gone on to record with some of the worlds most respected electronic music labels such as **Peacefrog**, **Ghostly**, **Ovum**, **Ultra Music**, and **Strictly Rhythm**. His work has been supported over the years by a wide spectrum of DJ's both club and radio from the likes of veterans: **Pete Tong**, **John Digweed**, **Carl Cox**, **Dubfire**, **Seth Troxler**, and **Josh Wink**.

His dark, hard hitting, driving, soulful sound created a reputation that still precedes him decades later. Always passionate and uncompromising as an artist, he continues to cut his own path still today. Relentless in his desire to explore new territory creatively. he continues pushing, provoking, and inspiring, while never forgetting his roots and his past.
